

**Speed Monitoring in the Village** – In response to comments from residents, the Vehicle Activated Speed Sign has recently been deployed on Sea Lane; Northbound at the junction of St Malo Close and Ferringham Lane, heading into the Village from the A259 before the left-hand bend.

In both locations, 3 -5 % of vehicles exceed the speed limit, however less than 1% are travelling above 35mph. Vehicle numbers have decreased by around 50% since the Coronavirus prevention measures were introduced.

Summaries of the findings will be published on the Parish Council Website.
